FY-23 Capital Improvement Request Priority # 2

Emergency on-call contractor

OBJECTIVE:

The Town of Plymouth (Town) has established an emergency on-call protocol to allow the Town to quickly contact contractors to respond during emergency situations. The objective of this article is to respectfully request a **\$200,000.00** fund to cover the invoice amounts for emergency wastewater responses for the town. The cost of an emergency call to do a typical wastewater repair could range between \$40,000 to \$75,000 per event, depending on the severity of the situation. This separate fund will be to pay the contractor on an emergency basis until such a time as the town can resume its normal sewer operations. The contractor(s) agrees to perform such emergency services for the town on a as needed basis and as designated by Plymouth DPW. If an emergency arises, as determined by the DPW's discretion, the DPW may contact contractor(s) to respond to the emergency events. This article will provide the funds to have the contractor(s) the means to safely mobilize, stabilize and repair any wastewater incident that may occur.
