EXPLOSIVE MATERIALS SAFELY TRANSPORTED AND DETONATED BY MASSACHUSETTS STATE POLICE BOMB SQUAD

FOR IMMEDIATE RELEASE: 3/7/2025

PLYMOUTH, MA – On Thursday, March 6th, the Plymouth Police and Fire Departments responded to a vacant home for sale on Summer Street. The realtor selling the house found an inert training grenade and ammunition-making supplies left by the prior owner. These items had been in the home for some time.

Due to the age and condition of the materials, the Plymouth Police Department requested the Massachusetts State Police Bomb Squad who took possession of all materials and safely transported them to the sandpits located behind the sewerage treatment plant in Camelot Industrial Park. Once transported safely, the State Police Bomb Squad began destruction of the materials through a series of controlled detonations beginning around 6:30 pm. There was no danger to the public and this is considered an isolated, non-criminal incident.
